May 2, 2018

To our valued customers and agents,

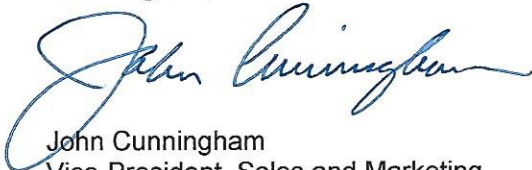

Due to the unprecedented and continuing rise in the costs of raw materials, Anamet is announcing a price increase across much of our product line.

While many products will not be affected, prices of affected products will rise between 5% and 10%.

The new pricing will become effective on July 1, 2018. This is true for distributor quotes as well as generic pricing.

Also, effective immediately, Anamet is rescinding the 15% upcharge on RWS and RWA reels. Pricing within the different sizes of these products will be the same regardless of packaging (reels, coils, cartons) on our standard offerings. Because of significant cost differences, NMUA reels will still carry a 15% upcharge.

Kind Regards,

John Cunningham
Vice-President, Sales and Marketing
Anamet Electrical, Inc.
